

Line array workshop

Tony Lloyd

has broadened his knowledge. Not only has he participated in the d&b Line array workshop, but he has also seized the opportunity to be comprehensively informed about the reality of the d&b system concept. In addition he has taken a close look at the basics of electroacoustics, as well as the extensive subject of system configuration and rigging in order to be able to make optimum use of d&b audiotechnik Line array systems, whilst also taking into consideration all relevant safety aspects.
